Stormwater Education

The stormwater requirements of the federal Clean Water Act are administered under the PA Department of Environmental Protection Municipal Separate Storm Sewer System (MS4) Program. Public Education and Outreach is one of the six (6) Minimum Control Measures (MCMs) under the MS4 program. The goal of the Public Education and Outreach MCM is to build greater support for the stormwater management program (SWMP), increase compliance, and ultimately increase environmental awareness amongst members of the community. Visit our [website](#) to learn more stormwater education and ways residents of all ages can help protect our environment.
