

Design, Installation & Test Certification Form

Gas Piping System-Single Family Dwellings

Project Street Address _____ . UPI #: _____ .

Permit Number: _____ .

Contractor Performing Work: _____ .

The 2018 International Residential Code requires a pressure test of the gas piping system. The test must be performed prior to concealment of the gas piping system at a pressure not less than 3 psi for ten (10) minutes. Refer to IRC Sections G2413, G2414, G2415, G2416, G2417, G2418, G2419, G2420, and G2422 for installation and test criteria.

Rough-in Test

I hereby CERTIFY that I have sized, installed and performed a test of the gas piping system at the location noted above. The gas piping complies with the above applicable IRC sections. This test was performed prior to the meter or supply connection.

Individual performing test:

_____ . _____ . _____ .

Print Name

Signature

Company Name

- Test date: _____ Test Pressure: _____ psi
- Test Medium: [] air [] CO₂ [] Nitrogen

Final Test

I hereby CERTIFY that I have performed a soap and meter test of all fittings in the gas piping system with appliances installed. This test was performed at the above noted address in accordance with UGI & IRC testing requirements.

Individual performing test:

_____ . _____ . _____ .

Print Name

Signature

Company Name

- Test Date: _____ .

This Installation & Test Certification Form must be completed prior to the Final Inspection of the appliance(s) or building.

The original Certification Test Form must be attached to the installed gas-burning appliance upon completion of all testing or presented to the Code Official prior to the Final Inspection.
