WILLISTOWN TOWNSHIP

ZONING PERMITS

What is a Zoning Permit?

Willistown Township is divided into eleven (11) different zoning districts with nine (9) different overlays within several of the eleven (11) zoning districts. The Zoning Ordinance describes the uses permitted in each district and establishes the standards that uses must meet to be allowed in the districts. The zoning permit procedure is established to ensure that uses specifically proposed to be located in a particular district meet the standards for that district.

Do I need a Zoning Permit?

The Zoning Officer will help you determine if you need a zoning permit. A zoning permit endorsement is required before the issuance of all building permits. A separate zoning permit application is needed only when an existing commercial use of a structure is proposed to be changed and no building permit is involved. Examples include the change of general office to the use of a doctor's office or the change of general office to the use of a restaurant.

How do I apply and how much does it cost?

Application forms and filing information are available at the Willistown Township Administrative Offices, 688 Sugartown Road, Malvern, PA 19355. An application requires a filing fee of \$100.00 Residential or \$150 Commercial to be paid before the issuance of the permit.

How are Zoning Permits reviewed and decided?

The Zoning Officer checks the application and all data to see that all provisions of the Zoning Ordinance are complied with. If architectural and site plan approval is also required for the proposed use, the zoning permit request is referred to the Building Department for review and comment.

If the Zoning Officer finds that the proposed use complies with all applicable provisions of the Zoning Ordinance, the zoning permit will be issued and a written record maintained of the findings. If all of the provisions of the ordinance are not complied with, it will be denied and all reasons set forth in writing.

What happens if my request is denied?

If the Zoning Officer denies a zoning permit request, the decision may be appealed to the Zoning Hearing Board as described in the Township Code.

WILLISTOWN TOWNSHIP ZONING SITE PLAN REQUIREMENTS

The following must appear on all site plans:

Location of all property lines, including length of lines and the property size in square feet.

Location of all existing buildings and improvements, including but not limited to:
Residences, driveways, garages, decks, patios, porches, sheds, hot tubs, swimming pools and any other outbuildings.

Location of all building requires set-back lines.

Location of all proposed building requires set-back lines.

Exact dimensions, in square feet, of all existing and proposed improvements to the property.

Exact dimensions, in square feet, from all existing and proposed improvements to all property lines.

Location of all public streets and sidewalks abutting property.

Location of all easements on the property, both public and private, including the exact dimensions of all easements.

Location of the 100-year flood plain and the 100-year flood plain elevation, if applicable.
Boundaries of the 100-year flood plain must be field staked prior to any construction, if applicable.

Location of an on-lot sewage system, if applicable.

Location of potable water well, if applicable.
